Registration Now Open for Maureen Shankey's On-Line Class!

The American Kumihimo Society is pleased to announce that registration for the 5th program in its Braider's Dozen Series is now open. Each month, AKS offers monthly online courses free to AKS members.

May's program, ***Color Demystified***, will be hosted by Maureen Shankey, MFA, an acclaimed jewelry designer and artist in St. Petersburg, Florida.

Maureen says "In ColorDemystified you will become more confident about selecting exciting color combinations. You will talk like a fine artist and throw around terms like saturation, temperature, and value. You will use your own kumihimo and beading supplies as well as anything in your home, wardrobe, or magazines that will help you make the elements of color theory come alive."

The class will consist of four modules, and students will have a week to work through each module. In addition, there will be a private Facebook group where you can post pictures of your work, ask questions and share information with your fellow students.

Participation in the class is limited and is available on a first-come, first-served basis. All you need is a computer or tablet with access to Facebook. To register, log in to [AKS Website](#)

Recent online classes have "sold-out" within hours of the registration opening. Response has been overwhelmingly positive!

Upcoming Events

[Bead and Button Show](#): June 4-11, 2017, Milwaukee, WI. Visit the AKS at our Booth!
[AKS Gathering](#) October 20-22, 2017, Tampa, FL. Great Classes still available!

Please send contributions and ideas for newsletter to:
